

Rodale Institute's **Agriculture Supported Communities (ASC) Program** is a farm share program that offers a weekly selection of seasonal fresh, organic, locally-grown produce delivered to your community. Through farm share programs, you are a stakeholder in your local farm and a supporter of your local economy. By participating in the ASC program your dollar contributes to the important work that we have been doing at Rodale Institute for over 70 years, including researching the benefits of organic agriculture, training new organic farmers, and increasing availability and accessibility of organic produce in low-income communities. Our program offers both vegetable and meat share options:

**Vegetable Shares:** Members will receive a mix of products that have been field-grown and grown in our high tunnels. We strive to offer variety while providing a good selection of the basics.

**Meat Shares:** In addition to the vegetable share, the option to participate in a monthly pork, poultry or pork/poultry duo share is available. All meat included in shares were organically-raised on pasture at Rodale Institute. Members can receive a monthly meat share with a weekly vegetable share or without. There are no substitutions or revisions for meat shares. **Monthly deliveries will occur the second week of each month starting June and ending in October. Monthly payment members will be charged on the weeks of deliveries.** A la carte meat purchases are also available – see cuts and prices at [rodaleinstitute.org/get-involved/visit/asc-membership/custom-pork-orders](http://rodaleinstitute.org/get-involved/visit/asc-membership/custom-pork-orders).

The ASC runs from approximately the first week of June through the last week of October (exact dates vary due to weather patterns.) All members agree to pick up their shares weekly throughout the entire season at one of the community locations listed on this form.

I am committing to support Rodale Institute’s ASC through the 2019 growing season and share in the risks and rewards of this farm. I understand that the farmers at Rodale Institute grow all of the produce provided in my share with chemical-free organic practices and my farmers will provide the most balanced and bountiful harvest possible. I realize, too, that farming varies from season to season and despite specific projections, farming is susceptible to weather, insects, disease and other acts of nature. **I understand that I am committing to pick up my share on a weekly basis for the entire season at the location I have chosen, during normal pick-up hours. If I cannot pick up my share or have it picked up by a family member or friend, I will notify my farmer. I understand I will still be charged for the weekly delivery of produce even if I do not pick it up.**
